Nasa International Space Apps

# Prashant Palve

## Full Stack Web Developer

## Professional Summary

Dynamic Full Stack Web Developer with expertise in JavaScript and the MERN stack. Skilled in building scalable applications, designing efficient APIs, and integrating frontend and backend systems. Capable of leveraging Generative AI and rapidly learning new technologies to drive innovation and efficiency.

## Experience

**A2Z IT HUB PRIVATE LIMITED** | Full Stack Developer January 2024 - May 2024

- Developed responsive web applications for diverse clients using modern web technologies, ensuring compatibility across various devices and platforms.
- Collaborated with cross-functional teams to ensure cohesive integration of front-end and back-end systems, aligning project requirements with end goals.
- Contributed to delivering high-quality user interfaces and improved user experiences, enhancing overall application functionality and user satisfaction.

## Projects

**Reebok Ecommerce Project** [Live Demo Link](#) [Github Repo Link](#)

JavaScript HTML5 CSS3 Tailwind CSS Firebase

- Developed a frontend e-commerce application replicating the core functionalities of the Reebok website using JavaScript, HTML5, CSS3, and Tailwind CSS.
- Implemented dynamic product pages for different categories with options for filtering, sorting, and pagination to enhance user navigation.
- Co-developed shopping bag features for adding, removing, and reviewing items, along with complete order placement functionality.

**Movie Booking Website** [Live Demo Link](#) [Github Repo Link](#)

JavaScript HTML5 CSS3 Tailwind CSS

- Collaborated with team members to understand and define project requirements for an intuitive user interface.
- Implemented secure login and registration functionality using Firebase Authentication to ensure data protection.
- Managed real-time data storage and updates using Firebase to ensure seamless user experience.
- Optimized the application's performance to handle high traffic and reduce load times, ensuring scalability.
